

# Team 48 - Phase 2 Report

## Changes to EER Diagram

- 1) Sells relationship between Clerk and Tool
  - a) Added attributes "Sale Date" and "Sale Price" to correctly accommodate the Sell Tool form in the requirements document.
- 2) Reserves relationship between Reservation and Tool
  - a) From feedback on initial submission of EER, made this relationship M-N.
- 3) Holds relationship between Clerk and Tool
  - a) From feedback on initial submission of EER, made this relationship M-N.
- 4) Phone number attributes
  - a) From feedback on initial submission of EER, we separated phone number attributes into composite attributes of "area code" and "local number".

## Changes to Abstract Code

- (1) Added check on start and end dates validity
